**CRASH THE CONVENTION**

Call them the facts, they're quite simple. In September it's time to go to the convention. How do we do that? What's our role? That part is up to you. The most important part of the planning is the mobilizing. The mobilization coming to the RNC will have to be like nothing we have ever seen and it will have to be strategic, thoughtful, and occasionally be influenced by marching, a piece of paper that we can make ourselves.

We say that our lives are our own, and our stop- ping thing is to be able to take the power to take our lives into our own hands.
